

arena geisingen international 17.04. - 19.04.2020 cancelled!

Due to the worldwide spread of the Corona Virus, after thorough consultations with the health authorities of our district and after the announcement of our Ministry of Health, that events with more than 1000 people should be cancelled - our race „arena geisingen international 2020“ can not take place in the month of April.

The forecast concerning the spread of the Corona Virus in Europe and Germany is clear - we didn't reach the peak of the wave of infection by now. This means, that the situation will not get better in the next weeks.

The health of athletes, visitors and volunteers, has top priority.

We know that a lot of athletes and teams will be deeply disappointed, that they don't get the chance to show their skills and improvements, they have been training for so hard.

Together with the European Federation, we are currently looking into the possibility of postponing the event to a later date during the year.

We regret, that we have no better news for you -

We wish you all good health and hope to see you in the arena geisingen next time!

Sabine Uhrig
